Indoor Meterbox Range 2019

METERBOX FEATURES

With the help of some local electricians, we have come up with a great design for our Indoor Meterboxes.

The new features include:

- Metal Hinges
- Heavy Din Rail
- All External holes filled up
- Easy to open magnet catch Lid
- Easy to use & swap ends Grommets

POLE FILLER	Pole Filler Strip White 8 x.5(Half) & 2 x1(Full) Per Strip

SURFACE MOUNT BOXES

Why put a box inside a box?

We have designed a new version of the 'Surface Mount' boxes that can be used and installed as just one complete box, this means;

- ✓ you don't have that extra cost of two items, and
- ✓ no mucking around fitting it inside another box!

These boxes will be available soon!

FEEDBACK

Your valued feedback helps to assist us to make modifications to our boxes/boards. Feedback so far has ensured installation is quicker and easier, reduction in installation costs, and all while maintaining a high quality product.

Get in touch via details below with any useful feedback.
